

Vodafone Red Sharer

Discover the power of sharing

Vodafone
Power to you

Vodafone Red Sharer

Vodafone Red Sharer enables you to make the most of your employees' UK data allowances by pooling them. Whether they're on 3G, 4G or mobile broadband plans, each employee's UK data allowance is flexibly shared amongst your whole team, with a single monthly bill. You'll also all get unlimited UK calls and standard UK texts.

- Pooled UK data to share across your organisation
- Combine users of 3G, 4G, tablets and mobile broadband
- Easier to avoid charges outside of your plan
- Worry-free UK data and control of users' usage
- Unlimited calls to UK mobiles and landlines (starting 01, 02, 03) within the UK and standard UK texts for all your employees

Pool your data with Vodafone Red Sharer

In most organisations there will be some employees who regularly go over their data allowance, whilst others hardly use theirs. Vodafone Red Sharer enables you to take the UK data allowances of all your employees' plans and put them together in a single 'pool' that you can all use. So you can ensure your business is making the most of its data allowances, and reap the benefits of being able to work and collaborate efficiently on the move, in a cost-effective way.

It doesn't matter if your employees are on 3G, 4G or mobile broadband plans – Vodafone Red Sharer lets you pool your UK data regardless of what kind of devices you're using or how many of you there are.

Worry-free data you control

If necessary, you can buy additional data allowance for your pool, to ensure you have enough to avoid charges outside of your plan. You can even set limits and manage users' access.

Vodafone Red Sharer provides worry-free access and control beyond data, with unlimited UK calls and UK texts for all your employees, all in one simple package with a single monthly bill. We'll text you with updates telling you how much data has been used, with an opportunity for you to add more when needed.

The more efficient way to stay connected

No business wants to miss out on the benefits of enabling its employees to work effectively on the move. But our usage statistics show that, in doing so, employees within an organisation often use very different amounts of data. The result? Heavy users run up charges outside of their plans, whilst light users don't fully use their monthly allowance.

Vodafone Red Sharer can help you save on your total monthly data spend by avoiding expensive out-of-plan charges. Your employees will get access to loads of data in a pool to share, plus they can talk and text as much as they want with inclusive unlimited UK voice and UK texts.

Your pooled data can be shared with as many of your colleagues as you like when they're on the move in the UK, and with their tablets and dongles too. We'll keep you updated on your usage by text and give you the opportunity to add more whenever you want.

And to ensure your customers can always reach you, you can get a virtual landline number that goes straight to your mobile by adding One Net Express to your Red Sharer plan for a small additional cost.

Simplicity and predictable costs

With Vodafone Red Sharer you can tailor a data plan to fit your specific business needs and share it between lots of devices – phones, laptops, tablets and dongles – to ensure you make the most of it. Everything is built into a single plan so there's a lot less paperwork involved at the end of the month. One contract, one bill, one payment.

Easy to manage

We'll send you real-time text messages keeping you informed about how much data you've used, plus you can request an update at any time by text. And although your data is shared, it's up to you how much each of your team use – you can set individual limits and caps if necessary. We also enable you to control your team's data usage by times of the day and night and by location.

By managing your data consumption more efficiently you can avoid out-of-plan charges while ensuring your team stay connected and are able to collaborate effectively.

How might a Red Sharer plan work for you?

4G	MBB 4G	3G	= 11GB DATA POOL
Voice/SMS 2GB data	4GB data	Voice/SMS 1GB data	
3G	MBB 3G	3G	
Voice/SMS 1GB data	2GB data	Voice/SMS 1GB data	

In this example, the customer has six people on a Red Sharer plan giving a total of 11GB shared UK Internet data. We call this a sharing group. Within the group you can have a mixture of 3G and 4G mobiles, tablets, MiFi or dongles.

Each group needs a **Lead member** who will manage the group data pool, notifications and billing. You can also nominate a **Deputy member** for times when your Lead member isn't available.

Our notifications – keeping you in the picture

Message description	Lead member	Deputy member	Other group members
Data pool usage message: Sent to you at 80% & 100% of your data pool usage. To stop these alerts text STOP to 40506.	✓	Option	-
Out-of-plan step message: Sent at 80% & 100% of your out-of-plan usage. Out-of-plan charges are calculated in steps of 250MB. To stop these alerts text STOP to 40506.	✓	✓	-
Members' threshold limit message: Sent when your members' data usage has reached 80% & 100% of your limit. To get these messages you'll need to set your threshold limit during initial set up of your account or by calling our customer services on 191.	-	-	✓
Pool usage query: To find out how much data your group has left, text 'INTERNETBALANCE' to 40506 any time.	✓	✓	-
Pool update message: Confirming when you've added additional data or members.	✓	✓	-
Lead member change message: If you change your Lead member (by calling our customer services on 191), we'll confirm the change with a message to your old Lead member and current Deputy.	✓	✓	-
BAR message: If you receive a 100% members' threshold limit message, your Lead member has the option to bar members from internet usage for the remainder of the billing month. Simply text 'BAR INTERNET' to 40506. This bar will be removed automatically at the beginning of the next billing month.	✓	-	-
Member UNBAR message: To remove the data bar before the end of the billing month, text 'UNBAR INTERNET' to 40506. A message will also be sent to your members to update them.	✓	-	-
Additional data messages: When your data usage has reached 80% of your initial monthly allowance we will ask you if you want to add more data to your pool. You can respond to this message by texting 'ACCEPT' to 40506. (Note: We will only send one additional data message each month and then send the normal data pool usage messages as described above.)	✓	-	-
STOP Messages: To opt out of some message notifications you can text 'STOP' to 40506. This feature will be presented when you receive notifications related to pool usage. (Note that messages related to roaming usage will also be suppressed if you choose this option.)	✓	-	-

Vodafone Red Sharer

We understand that being able to stay in contact and collaborate efficiently when you're on the move is vital to your business. And to do so, you and your employees use different amounts of data on your devices. With Vodafone Red Sharer, you can make the most of the data allowances you're paying for and maximise the potential of sharing documents, schedules, emails and Skype calls, right across your business.

It's just one of the ways Vodafone can help you turn technology into better ways of working, and better ways of working into tangible benefits for you.

Vodafone: partnering with you to make your communications count.
