

## **Learn about One Net**

At Vodafone we understand how important it is to ensure that your customers can get in touch with you and your team first time and every time they call, and we know that you don't want to waste time managing lots of suppliers, bills and contracts.

Vodafone One Net is here to help your business be more efficient and simplify everything by providing a complete solution which links company landlines to company mobiles.

Calls from either cost the same and there are no call forwarding charges, using One Net your company landlines and mobiles become one, calls coming to your landline when you're out of the office are also received on your mobile.

Your voicemail boxes become one so you can listen to all of your messages from either phone.

All your call management features work on your mobiles so any of your employees can receive calls from the company hunt group number when out of the office or seamlessly transfer calls whilst on the road with no additional costs, meaning your team can work as effectively out of the office.

One Net makes managing your communications so much easier with just one supplier for your landline, mobile and phone system you benefit from having just one contract, one bill and one monthly fee, making it easier to manage and saving you time hassle and money. Also because the Vodafone network runs the functionality it's easier for you to scale as and when your business needs it.

One Net gives you total freedom and flexibility whether you're in or out of the office, with Vodafone One Net you'll never miss a business call again, improving efficiency and saving your business money. One phone company, one voicemail, one bill, One Net.
