

## Acer AS5253 laptop with Vodafone Wi-Fi modem

This great value laptop is perfect for your daily business and home computing needs.

It has over 3 hour's battery life so you can easily power through your presentations and demos.

With big functionality and a sleek black design, the 15.6 inch high-def display provides ample screen to run multiple screens.

The 1.3 megapixel HD webcam enables you to go online and web conference. To connect to the internet, our Vodafone Wi-Fi modem comes with the laptop.

The Vodafone Wi-Fi modem is the latest cable free, without software, wireless modem that connects any laptop, PC, Mac or tablet as long as it is Wi-Fi enabled, you do this using a Vodafone SIM card.

It can connect 5 devices at once and works in the UK and overseas. The modem lets out a 'Wi-Fi' signal which you can connect to using the password on the inside of the modem.

The Acer laptop with Vodafone Wi-Fi modem is available at Vodafone. The price of the laptop and modem will depend on which business package you choose and agreement length. All the prices shown are excluding VAT.
