Wherever your business may take you – we've got you covered. Our new solution gives you total control by ensuring your employees never go out of bundle and that you only pay for what you actually use. Introducing Vodafone Business Optimiser.

Why Vodafone Business Optimiser?

Always on the best plan

Depending on how much data you use, we'll automatically move you to the most cost-effective plan, and you'll always return to OGB at the start of each month. With no minimum data entry point and a plan optimised each month, you only pay for what you really use – at the best price.

Unlimited calls for total freedom

Get easy access to our reliable 4G network. With unlimited domestic calls and texts, plus inclusive international calls and text to Europe from the UK, your employees can remain productive, while never going out of bundle.

Stay in control

Enjoy more control over your spend with the application of caps and thresholds to voice, data and text through our Enterprise Spend Manager solution. Simply opt in to our email and SMS notifications to get regular usage updates.

Get started easily

Enjoy a quick and easy setup thanks to a variety of tariff options that are tailored to match your individual business needs.

Save time on administration

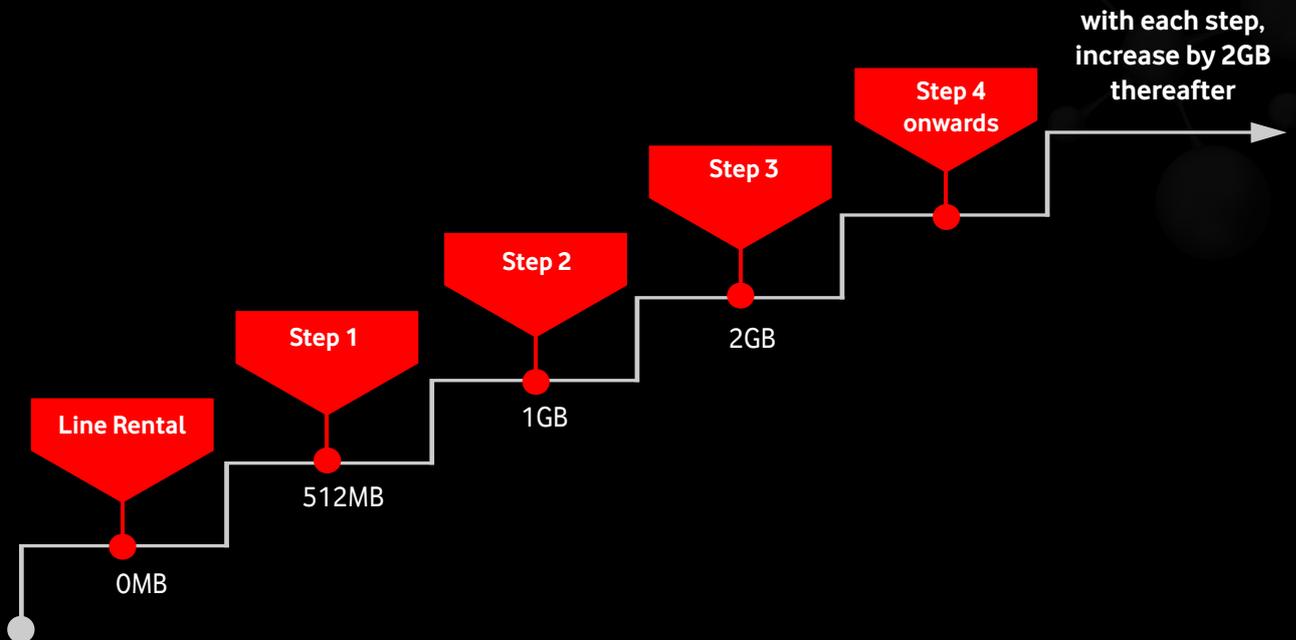

We offer a convenient single business contract model with a simple and consistent bill format, so you can stay focused on what matters the most to your business.

How it works

See how self-optimising works. As your employees use more data throughout the month, they'll automatically move up the ladder, with their plan optimising to suit your business needs. This will prevent them from going out of bundle and keep your costs under control. You'll never be hit with high domestic or roaming out-of-bundle charges when in the UK or travelling in our [Europe Zone and Business Traveller World Zones](#). No bill shock, no surprises.

You start from the bottom of the ladder every month and get charged according to individual data usage

Our Enterprise Spend Manager solution allows you to apply caps and thresholds to voice, texts and data, so that you can stay in control of your spend. Your costs will be clear to you at any given moment of the day and we'll always notify you when you've reached 80% and 100% of your allowance.

Roaming and international calls and texts

Vodafone Business Optimiser gives you peace of mind, with unlimited domestic calls and texts, plus inclusive international calls and texts to Europe from the UK
