

## Vodafone Corporate Insurance – 50+ employees Video Script

Phones are an essential part of any business, but a lost, damaged or stolen device shouldn't disrupt your employees.

That's why Vodafone Corporate Insurance is designed to sort issues quickly, get your employees back up and running and keep them connected.

We've got two levels of great value cover. There's our Damage and Breakdown Insurance, which protects devices against damage and out of warranty breakdowns. And our Standard Insurance that also includes loss and theft cover. With both cover options you'll receive a replacement device the next working day.

[On screen reference text]

Insurance is subject to a minimum 3 month term.

Each policy can cover a mobile phone or tablet purchased from Vodafone, and it also covers anyone authorised to use the device.

It even covers devices for worldwide trips of up to 30 days at a time.

For phones, you can also choose cover with our superfast Vodafone Rapid service. We'll aim to get you a replacement within 4 hours almost anywhere in the UK, and for every hour beyond the 4 hour delivery time we'll give you £10.

There's a nice, simple claims process and a low excess too.
