6. Early Termination Fee

- Under the terms Broadband Terms an Early Termination Fee may apply to you when you cancel your Vodafone Home Broadband and Phone Price Plan during your minimum contract (while still in contract with us).
- Your Early Termination Fee will be calculated using an amount which is not more than the standard monthly price of your Vodafone Home Broadband and Phone Price plan multiplied by the number of months remaining in your minimum period at the time you give us notice to terminate your Agreement.
- We will apply any discount you are eligible for following cancellation to your Early Termination Fee (subject to any requirements for such discounts).
- For disconnections completed on or after 24 February 2021, any Early Termination Fee will include VAT.

How we calculate your Early Termination Fee

We add together all outstanding monthly charges for the remainder of your minimum contract, taking into account any discounts you might receive.

We then take off;

- VAT at the current rate;
- any savings we make as a result of you leaving early, such as payments to suppliers; and,
- 1% if we receive your final payment early (as we'll receive it in one lump sum, instead of staggered over the remaining months on your contract).
- Finally, we add on VAT at the current rate.

For example:

Your plan costs £25 a month. You have 6 months left until your plan ends, and you want to leave.

Your Price Plan

Vodafone Home Broadband and Phone

Consumer Customers – Prices effective from 14th March 2024

To work out your outstanding charges for these remaining 6 months, we multiply what you pay each month (£25) by 6 = £150

We then subtract VAT (20%) from that £150 = £125

We take off any cost savings (for example, £14 a month, multiplied by six = £84), leaving £41. If applicable, we apply a 1% discount for receiving your payment early, leaving £40.59

Finally, we add on VAT at the current rate. The Early Termination Fee would be £48.71

As stated above, when calculating your Early Termination Fee, we'll subtract any savings we make as a result of you leaving early. If you'd like to know how much your Early Termination Fee will be at any time during your minimum period, please contact us.

7. Direct Dialed Call Charges

Call charges are in pence per minute, with a charging period determined by the time you are connected to the network. If the price point is published as price per minute (ppm) then charging is rounded up to the nearest minute. Fixed fee charges are not rounded as these are not based on call duration.

Call durations are accurate to the nearest second.

The rates set out in the Call Charge Guide at www.vodafone.co.uk/callchargeguide only apply in respect of out of bundle usage.

Any inclusive minutes purchased via one of our Home Phone Extras are subject to a 60-minute maximum duration per call. Standard call charges apply if you exceed the 60-minute maximum duration. To continue making inclusive calls simply hang up and redial before the 60 minutes.

Please be aware of any manufacturer specific issues which may affect your call charges (such as your home phone manufacturer). For more information, please refer to your device's manufacturer documentation.
