Shared data

Red Sharer with Data Sharer allows an overall data bundle to be shared between multiple connections within a group. The group is composed of a lead connection, and linking member connections (the "Group"). Customer is only permitted to have one Group unless Vodafone expressly agrees otherwise.

The lead connection shall incur all Vodafone Data charges and there must be one lead connection on your account.

The Red Sharer with Data Sharer bundle applies to standard data usage within the UK only ("Bundle").

Your lead connection cannot have a content bar applied because out of bundle charges will be recorded as content purchases.

All connections in the Group will be permitted to use the Bundle. Any other data bundles will not be available for use but you may still be charged.

We will send you a text when you have used 80% of your Bundle and further text when you have used 100% of your Bundle. You can also text 'INTERNETBALANCE' free to 40560 to check how much data is left in you Bundle. These functionalities are only available to the lead connection.

- You may not have more than 50 member connections in your Group.
- You must have at least one lead connection in your Group.
- The lead connection must be a smartphone.
- Red Sharer with Data Sharer is not compatible with Data Test Drive.

If you do not comply with these terms we will text you to advise you to get in touch with us to rectify your non-compliance. If we don't hear from you within 5 working days of our text, we shall remove your non-complying connections from the Group and charge you the standard data charges applicable to this price plan.

Your Bundle must average at least 500MB per connection in your Group at all times.

Red Sharer with Data Sharer billing does not support automatic cost centre allocations of charges.

You may migrate your connections to a Red Sharer with Data Sharer price plan with a larger data bundle subject to payment applicable charges for that price plan.

All new member connections must terminate with the lead connection.

Vodafone EuroTraveller can be applied to Red Sharer with Data Sharer connections.

The operational functionality of Red Sharer with Data Sharer is set out at the bottom of this Price Plan Guide under 'Red Sharer with Data Sharer functionality'.
