

On 10 May 2018, we'll be making changes to our roaming destinations.

Changes for Pay monthly customers

42 of our Rest of the World destinations will become Roam-further destinations. This will mean that for £6 a day you'll be able to take your home plan of data, minutes and texts with you in even more places worldwide.

We'll also be moving Albania and Bosnia and Herzegovina from Roam-free to Roam-further. This means that all usage in these countries will also be charged at £6 a day.

These changes will affect all new and existing Pay monthly customers from 10 May.
