## Early Termination Fee

- Under the terms of your Home Broadband and Phone Terms an Early Termination Fee may apply to you when you cancel your Vodafone Home Broadband and Phone Price Plan during your Minimum Period (while still in contract with us).
- Your Early Termination Fee will be calculated using an amount which is not more than the standard monthly price of your Vodafone Home Broadband and Phone Price plan multiplied by the number of months remaining in your Minimum Period at the time you give us notice to terminate your Agreement.
- We will apply any discount you are eligible for, following the cancellation from your Early Termination Fee so long as you are still connected to your Pay Monthly Mobile Service.
- For disconnections completed on or after the 24<sup>th</sup> of February 2021, any ETF charges will include VAT.

### How we calculate your Early Termination Fee

We start with the total remaining amount you would have paid up to the end of your Minimum Commitment Period.

We take away:

- any savings we make as a result of you leaving early, such as payments to suppliers; plus
- 1% if we receive your final payment early.

### **Example calculation**

Your monthly price is £25. There are six months remaining in your Minimum Commitment Period. We multiply £25 by six, giving a total of £150.

We subtract VAT (currently 20%), reducing it to £125.

We subtract any cost savings (for example, £14 per month, multiplied by six = £84), leaving £41. If applicable, we apply a 1% discount for receiving your payment early, leaving £40.59.

Finally, we add on VAT. The Early Termination Fee would be £48.71.

As stated above, when calculating your Early Termination Fee we'll subtract any savings we make as a result of you leaving early. If you'd like to know how much your Early Termination Fee will be at any time during your Minimum Commitment Period, please contact us.

## Direct Dialed Call Charges

Call charges are in pence per minute, with a charging period determined by the time you are connected to the network. If the price point is published as price per minute (ppm) then charging is rounded up to the nearest minute. Fixed fee charges are not rounded as these are not based on call duration.

Call durations are accurate to the nearest second.

The rates set out in the Call Charge Guide at [www.vodafone.co.uk/callchargeguide](http://www.vodafone.co.uk/callchargeguide) only apply in respect of out of bundle usage.

Any inclusive minutes purchased via one of our Home Phone extras are subject to a 60-minute maximum duration per call. Standard call charges apply if you exceed the 60-minute maximum duration. To continue making inclusive calls simply hang up and redial before the 60 minutes.

Please be aware of any manufacturer specific issues which may affect your call charges (such as your home phone manufacturer). For more information, please refer to your device's manufacturer documentation.

Details of our call charges and how we calculate and round up call charges can be found in our Call Charge Guide at [www.vodafone.co.uk/callchargeguide](http://www.vodafone.co.uk/callchargeguide).

## Vodafone Broadband Services

**Broadband and Wi-Fi Speeds:** Any Vodafone broadband speeds referred to in this Price Plan, on our Website or any of our other materials are maximum download speeds.

Broadband speeds are dependent on all hardware, computing and other equipment components meeting certain minimum specifications, being fully functional and working at full speed.

The range of wireless equipment can vary according to the layout of your home. Other factors can also impact internet speeds, such as distance of your home from the network exchange, the number of people using the internet, the level of use of the internet and other environmental and technological influences.

Please refer to our [Vodafone Home Broadband and Phone Guides](#) within our service pack for further information.

**Vodafone Broadband router:** We will provide a Vodafone Broadband router to any new customers who wish to take our Vodafone Home Broadband and Phone Services (subject to successful Vodafone Home Broadband and Phone Services availability checks and credit checks). To connect wirelessly to the router, your equipment will need to have wireless compatibility in order to be able to access the internet.

**Downloading third party content:** A copyright owner's permission may be required for downloading protected content. Downloading protected content without the copyright owner's consent may constitute a criminal offence. Further details are contained in our Vodafone Home Broadband and Phone Acceptable Use Policy at [www.vodafone.co.uk/broadband](http://www.vodafone.co.uk/broadband).

**Content Controls:** Content Controls are currently available to all Vodafone Broadband customers. Content Controls will be automatically set to off as default.

Users can choose and change their Content Control settings at any time by accessing their account via [www.vodafone.co.uk/myvodafone](http://www.vodafone.co.uk/myvodafone).

# Vodafone Broadband Terms and Conditions

## Terms and Conditions

1. **Application of this section:** The terms and conditions set out in this Price Plan are supplemental to the Vodafone Home Broadband and Phone Terms and Conditions (available at [vodafone.co.uk/terms-and-conditions](http://vodafone.co.uk/terms-and-conditions)) and Service Confirmation Letter, which, together with this Price Guide, forms our Agreement with you.
2. **Vodafone Pro Broadband Terms and Conditions:** The terms and conditions set out in this clause 2 apply to customers that purchase a Vodafone Pro Broadband plan or a Super WiFi Plus with Alexa Built-in broadband plan (except as set out in clause 4 below).
  - 2.1. **Broadband Back-up.** If you have a broadband back-up dongle (“**Dongle**”) included in your plan, you acknowledge and agree that:
    - 2.1.1. The Dongle uses our 4G network, which means the service, speed and consistency of your connection may vary due to a number of factors, including location, coverage and demand;
    - 2.1.2. Your use of the Dongle is subject to the applicable terms and conditions relating to our mobile broadband products, which can be found at: [vodafone.co.uk/terms-and-conditions/](http://vodafone.co.uk/terms-and-conditions/);
    - 2.1.3. You will receive an allowance of 50GB of data for use on your Dongle with your plan;
    - 2.1.4. If you require additional data for your Dongle beyond the 50GB allowance included in your plan, please contact us. The provision of additional data for your Dongle is at our discretion and is subject to your compliance with the terms and conditions of the Agreement;
    - 2.1.5. Your Dongle must be plugged into the relevant port of your Vodafone-supplied router in order for it to provide a connection after a total loss of service on your fixed line broadband;
    - 2.1.6. Your router must be connected to your fixed line at all times for your broadband to function, and your failure to connect the router to your fixed line shall not constitute a fault with your fixed line broadband;
    - 2.1.7. You must only use the Dongle when you have a fault with your fixed line broadband;
    - 2.1.8. You must not roam with your Dongle;
    - 2.1.9. If your devices are connected to the internet via your Dongle rather than via your fixed line:
      - 2.1.9.1. You will be unable to use static or fixed IP addresses and any devices that are reliant on a static or fixed IP address to function, will not function as intended; and
      - 2.1.9.2. You will be unable to make VoIP calls or utilise VoIP services on devices that are connected to the Dongle, including calls to emergency services. We recommend that you ensure you have an alternative means of contacting the emergency services in the event that your router stops working, including without limitation where there is a total loss of service on your fixed line broadband.
  - 2.2. **Super WiFi:** Subject to clause 4 below, if you have our Super WiFi product included in your plan, we will send you one WiFi Booster with your router. If you do not receive a WiFi signal and throughput speeds of at least 10Mbps in each room of your home, we will send you up to two more WiFi Boosters (three in total). Subject to clause 2.3 below, if you are still unable to receive a WiFi signal and throughput speeds of at least 10Mbps in each room of your home:
    - 2.2.1. Please contact us so that we can attempt to resolve your WiFi signal and speed issues; and
    - 2.2.2. If we are unable to resolve your WiFi signal and speed issues, so that you receive a WiFi signal and throughput speeds of at least 10Mbps in each room of your home, you may terminate your Agreement with us, without paying an early termination fee, provided that you notify us that you are terminating the Agreement within 30 days of receipt of the final WiFi Booster.
  - 2.3. Please note:
    - 2.3.1. The router must be connected to the fixed line broadband network and the internet for the WiFi Boosters to work;
    - 2.3.2. The WiFi Boosters will not work when there is a broadband fault, including without limitation a fault with your fixed line;
    - 2.3.3. You must use the router and WiFi Boosters we supply to you as part of your Pro Broadband plan;
    - 2.3.4. You must follow our reasonable instructions when seeking to resolve any WiFi signal issues you may have;

**3. Equipment:** The terms and conditions in this clause 3 apply to all Vodafone Home Broadband customers.

**3.1. Ownership of Equipment:** Except where we expressly state otherwise, you will own the equipment we supply to you under our Agreement (**Equipment**) 14 days after your service activation date (the "**Equipment Transfer Date**").

**4. Super WiFi Plus with Alexa Built-In (also known as Super WiFi Plus, Pro with Alexa Built-in and Pro Plus, but defined here as "Super WiFi Plus"):** The terms and conditions set out in this clause 4 apply only to customers that purchase a Vodafone Super WiFi Plus broadband plan.

**4.1.** You will receive a Super WiFi Plus Booster with your router, instead of a standard WiFi Booster. If you do not receive a WiFi signal and throughput speeds of at least 10Mbps in each room of your home, we will send you up to two standard WiFi Boosters. Clauses **Error! Reference source not found.** and 2.3 are modified accordingly for customers with Super WiFi Plus broadband plans.

**4.2.** If you choose to use your own router (and not the one we supply), you will not be able to use the Super WiFi Plus Booster as a WiFi Booster, nor will you be able to use the 'Dinnertime' Alexa skill, which is included as an element of the service you receive with Super WiFi Plus broadband plans.
