

## **Trio of New Smartphones Arrive At Vodafone UK**

Three great new handsets – the BlackBerry Pearl 3G, Sony Ericsson X10 Mini Pro and LG Optimus – are now available from Vodafone UK.

The [BlackBerry Pearl 3G](#) is free on a £25, 24 month price plan, including 300 minutes, unlimited texts and 500MB of mobile data. The compact smartphone offers lightning fast email and web browsing on the go and features a new keypad design. It also features BlackBerry Messenger, a great way of keeping in touch and sharing info with others, and access to BlackBerry App World.

Customers buying the BlackBerry Pearl 3G through Vodafone's online shop receive a selection of red, blue and black skins to customise the look of for their phone.

Two new Android handsets have also been added to Vodafone UK's smartphone line-up - the LG Optimus and the Sony Ericsson X10 Mini Pro. Both devices are free on £20, 24 month price plans, including 100 minutes, 500 texts and 500MB of mobile data.

The [Sony Ericsson X10 Mini Pro](#) offers all the functionality of the X10 Mini with the added benefit of a full QWERTY keyboard, making it even easier to write messages. The X10 Mini Pro can be customised too, by allowing you to choose which content you want to access through the functions that are accessed directly through the four corners of the 2.55" screen.

X10 Mini Pro users also have access to Sony Ericsson's Timescape, which gathers all communications together, making it easy to view text messages, missed calls, and Facebook and Twitter updates. The phone's great for keeping you entertained too, and uses an "infinite button" to pull together content from the music store and YouTube.

The addition of the [LG Optimus](#) to Vodafone's range means there's even more choice of affordable Android devices for customers. The Optimus is packed full of great functionality, such as the ability to geo-tag and face-tag photos – meaning you'll always know where you took the shots and who was there with you.

The device also automatically synchronises your login across multiple Google services, and features a host of tools to help you keep right up to date with what's happening across your favourite social networks.

Both the LG Optimus and Sony Ericsson X10 Mini Pro offer access to thousands of free apps in the Android Marketplace.

Regardless of which handset customers choose, the Vodafone network has been built to give smartphone users a great experience. Find out more about our network by visiting our [online hub](#), or check out what our customers are saying
