

Your Charges Guide

Call 03333 043 222 or email disability.access@vodafone.co.uk for a large print, braille, audio CD or dyslexia-friendly version of this document.

When these charges will apply

Your plan includes a monthly allowance for calls to any mobile network within the UK, standard UK landlines (starting 01, 02, 03) and voicemail. It also includes a monthly allowance for standard text messages and data usage. It may also include a monthly roaming allowance for calls to any mobile network in the UK or in our Zone A destinations, standard UK landlines (starting 01, 02, 03), voicemail, standard text messages and data usage. Once you have exceeded your plan allowance or you use services which are not included within your plan, the prices shown in this Charges Guide will apply. You may be able to buy an Extra to give you additional allowances. You can view our range of Extras at vodafone.co.uk/extras or in your MyVodafone app.

How we charge for data usage

We measure your data usage in kilobyte (KB). Data is based on the following units:

- 1024 KB = 1 Megabyte (MB)
- 1024 MB = 1 Gigabyte (GB).

Your inclusive data allowance and additional data services will set out the amount of data you can use without an additional charge.

We calculate your data usage based on the amount of data that travels over our network, which may differ from the data your device consumes. Your data usage may include data packages which are re-sent over the network, for example if your connection drops off or if a webpage is refreshed. Certain data services (websites and other packets) may be usage free and will not be taken from your data allowance, whilst others can consume your data allowance.

It does not matter if you are using 2G, 3G, 4G, 5G, GPRS, Edge or HSPA we measure data in the same way over each of these networks.

Mobile data speed limits

Mobile data speed limits apply to our Vodafone Unlimited Lite and Vodafone Unlimited plans only. The maximum upload and download speeds you could experience on your device with these plans are as follows: Vodafone Unlimited Lite – 2Mbps and Vodafone Unlimited – 10Mbps. If you have chosen one of these plans, please note you are not guaranteed to experience the maximum speed stated for your particular plan – the actual speed you experience will depend on a number of factors including location, network coverage and network signal.

Expected upload and download speed

For an estimate of the coverage and speeds you may experience at home and when you are out and about in the UK, please see our coverage checker at vodafone.co.uk/coverage. The speed estimate you receive with our coverage checker is subject to any speed limits which apply to your plan (see above for more detail).

Information on your rights, should you experience speeds below those displayed on the coverage checker, is set out in the “Problems with our services” section in your General Network Terms.

Upload refers to data that is sent from an electronic device such as a mobile phone, tablet, computer, or a communications network. This includes all types of outgoing data, such as sending an email, posting on social media, or uploading a file or picture. It may also include data sent over the network while playing an online game.

Download refers to data that is received by an electronic communications device such as a mobile phone, tablet, computer, or a communications network. This includes receiving email messages, downloading files, viewing social media content, or simply visiting or browsing web pages. Online games also generate download traffic.

All standard UK call charges, including voicemail, within your minutes allowance are charged by the minute with a one-minute minimum call charge. Please note that, due to technical limitations, the start time of any calls made by you may not be the same as shown on your bill. Also, if you lose signal during a call, you will remain connected to our network for a short period and will be charged accordingly. To avoid any unnecessary charges, please end each call in line with the user instructions on your handset. Charges of shortcode services are listed in the merchants promotional material or adverts for the service. Total charges will vary depending on the service provided by the merchant and will be subject to the merchant's own charges. Please refer to the Vodafone Charger Checker service for more information.

In inclusive roaming destinations and Zones B, C and D calls are charged by the minute with a one-minute minimum call charge.

In Rest of World Zones 1, 2, 3 and 4 we will charge you for the call you make, or receive, in one-minute increments with a one-minute minimum call charge.

If we are charged an admin fee from a foreign network operator for you to receive a text, we will pass this charge to you.

*Data usage when roaming has a 25GB roaming fair use policy per billing month in Zones A, B, C and D. We will notify you as you approach this threshold and again once reached. If you reach this threshold, you will then be charged at a rate of £3.13 per 1GB to continue using data in Zones A, B, C and D until your monthly allowance renews. Please go to www.vodafone.co.uk/travelling for details of our Roaming Fair Use Policy.

You must not use any inclusive roaming services more than would be reasonably expected. Use of our services while in our inclusive roaming destinations and Zones B and C (on plans that include them at no extra cost) is intended for temporary, periodic travel such as holidays and short breaks. We will monitor and check your roaming use. If, during any 4-month period, you roam in these zones for 62 days or more AND your corresponding roaming usage exceeds your usage within the UK, you may incur additional roaming charges. We will send you notification two weeks prior to charging you any additional roaming charges, to allow you time to adjust your usage accordingly. These additional roaming charges will be:

- £0.033p per minute for calls • £0.01p per SMS • £3.13 per 1GB of data

Flexi-upgrade fee

If you qualify for a Flexi-upgrade (see your Welcome Letter for details), you may need to pay a fee if you upgrade early. The fee is based on the cost of the equipment and the remaining time left on your contract, and can be calculated as follows:

$$\text{Device subsidy} \div \text{contract length (months)} \times \text{remaining contract (months)}$$

Early termination fee

If you cancel a contract for your plan before your agreement ends, you'll need to pay an early termination fee. The fee is based on your monthly plan charge and the remaining time left on your contract, and can be calculated as follows:

For disconnections completed before 24 February 2021:

$$\text{Monthly line rental charge (exc. VAT)} \times \text{remaining contract (months)} \times 98\%$$

For disconnections completed on or after 24th February 2021:

$$\text{Monthly line rental charge (inc. VAT)} \times \text{remaining contract (months)} \times 98\%$$

Customers who have settled a Device Plan in full and early, and subsequently terminate the associated Airtime or Connectivity Plan, will not be charged any Early Termination Fees based on the associated airtime or connectivity contract.

Discounts on your monthly plan

You can only have one discount on your monthly plan. If your plan already has a discount included, then unfortunately you won't be able to add another one e.g. Vodafone Advantage. It may be possible to swap your discount, please contact us for more information.

Admin and other charges

Late payment fee	£5
Itemised paper bill	£1.54 per month
Additional bill copy	£1.54
Plan switching charge	£20

General

Prices are correct at time of print and are inclusive of VAT. If there is a conflict between the pricing and plan information in this Charges Guide and the pricing and plan information on our website, then the pricing and plan information on our website shall take priority. You can find out about all our latest call, text, video and data charges by checking vodafone.co.uk/pmcharges

All our services which are offered as “unlimited” (or similar) must only be used for your personal and non-commercial use. Where a call originating from a handset is disconnected, the network will initially assume that signal has been temporarily lost, e.g. when passing under a bridge or through a tunnel you could lose signal. The connection will be maintained and charged for the first 10 seconds after signal is lost. Should signal be re-established, the call will continue as before. If however, the caller has switched off the phone, run out of battery capacity or moved permanently out of range, the charges for that call will include the 10 seconds. In order to minimise the risk of unnecessary charges, customers should be careful to end each call as set out in the user instructions for the handset.

Please note you may incur additional charges due to manufacturer specific features on your handset. Please see your handset user guide for more information.
