  - i. you'll be **charged** for any services used up to the point you cancel your Extra within the cooling-off period; and
  - ii. you'll receive a **refund** on a pro rata basis for any days you have not used the service or, in some cases, any unused data, texts or minutes, depending on the nature of the Extra. See our Returns Policy at [vodafone.co.uk/terms](https://vodafone.co.uk/terms) for more information.
- b. **After the 14-day cooling off period**, Extras can't be refunded if they have been partially or fully used. You are also entitled to a refund of any unused credit if you switch to a new provider.

### How does it work?

- a. Purchase this Extra from the My Vodafone app.
- b. Your Extra will start upon purchase (so you should be able to use the data immediately) and expires either once the plan renews after 30 days, or when you have used up all the Extra.
- c. Any unused data from the Extra will not be transferred over to the next 30-day plan.
- d. You can purchase Data Extras with different allowances at the same time, but you can't purchase Data Extras with the same allowance at the same time. Wait for it to be used up or expire before purchasing again.

'Non-geographic numbers' are used by, for example, businesses, government agencies, information lines and payment services (they usually start with 084, 087, 09 or 118).

### How does it work?

- Once purchased, you can call and text premium rate numbers and non-geographic numbers that are included. There are different charges for premium rates depending on whether you call or text from the UK, Europe, Around the World or Rest of the World destinations. See the My Vodafone app for more information.
- You will choose the amount of monetary credit you'd like from the selection of Extras available, and calls or texts will be charged and deducted from your Extra.
- Your Extra starts upon purchase and expires either once used up or at 11.59pm UK time on **day 90**, whichever is sooner.
- If your Extra expires whilst you are making a call, the call will end, and you'll need to purchase another Extra to continue the call.

The following **would** be included within a Premium Rate Credit Extra:

- ✓ UK & Roaming to NGN Numbers (4484, 4487, 118, 449)
- ✓ UK to Premium Voice short codes
- ✓ UK to Directory assistance
- ✓ UK to CNFSUPTLN (85484/65478/85455)

The following **would not** be included within a Premium Rate Credit Extra:

- ✗ Calls or texts to radio-paging services (starting 076)
- ✗ Personal numbering services (starting 070)
- ✗ Call forwarding services (such as 07744 or 07755)
- ✗ Video messaging or non-standard UK text messages

**Charges for Premium Rate calls:** When you call premium rate or non-geographic numbers included in this Extra, charges for these calls are split into **two parts**, which will both be deducted from the Extra:

'Vodafone access charge': the amount we charge to connect the call, charged at 74p per minute (charged by the second with a one-minute minimum call charge); **plus**

+

'Service charge': amount charged by, for example, businesses, government agencies, information lines and payment services (they usually start with 084, 087, 09 or 118)

Service charge is set by the merchant and not Vodafone. Calls are rounded up to the nearest minute and the charge will be deducted from your Extra. For more information, see [vodafone.co.uk/ukcalling](https://vodafone.co.uk/ukcalling).

**Charges for Premium Rate texts:** These are set by the merchant of the number you want to text.

Example: To send a text to vote on TV that costs £2 (set by the merchant), you must purchase a Premium Rate Credit Extra (for £5, for example), and £2 would be deducted from the £5.
