Your Early Termination Fee will be calculated based on what Vodafone Home Broadband and Phone Price Plan you have agreed to with us and how many months you have left in your Minimum Period (while you will still remain in contract) at the time you terminate your Agreement.

You can calculate any Early Termination Fee applicable to you using the table below.

Please note: we may, in addition, charge a one-off cancellation fee of £15 as part of any Early Termination Fee to reflect the reasonable cost to us of processing the early termination of your Agreement.

Vodafone Home Broadband and Phone Product	One Off Cease Fee	Monthly Early Termination Fee

Direct Dialed Call Charges

Call charges are in pence per minute, with a charging period determined by the time you are connected to the network. If the price point is published as price per minute (ppm) then charging is rounded up to the nearest minute. Fixed fee charges are not rounded as these are not based on call duration.

Call durations are accurate to the nearest second.

The rates set out in the Call Charge Guide at www.vodafone.co.uk/callchargeguide only apply in respect of out of bundle usage.

Any inclusive minutes purchased via one of our Home Phone Extras are subject to a 60 minute maximum duration per call. Standard call charges apply if you exceed the 60 minute maximum duration. To continue making inclusive calls simply hang up and redial before the 60 minutes.

Please be aware of any manufacturer specific issues which may affect your call charges (such as your home phone manufacturer). For more information please refer to your device's manufacturer documentation.

Details of our call charges and how we calculate and round up call charges can be found in our Call Charge Guide at www.vodafone.co.uk/callchargeguide.
