

Vodafone Business Casual package

Welcome to the Vodafone Business Casual package.

This package is perfect for you if you're a bit 'off-and-on' with mobile internet.

You'll send two emails one day. Then download a whole ream of documents the next. This package covers you either way.

Take Hannah for example:

Hannah is self employed; she mostly works at her client's premises and uses their office internet. To save on overheads, Hannah does not have a home broadband connection. She often has to send documents from home or on the train as she has deadlines that just can't be missed.

Having the Vodafone Business Casual package means Hannah can connect to the internet when these situations arise.

You pay just £5 a month and then 5p for each bit of mobile internet used thereafter, we call this a megabyte. This is an affordable option for Hannah and it removes the need to sign up to a home broadband line or commit to long expensive contracts.

The package also includes 1GB of access to 4000 BT Wifi Openzone hotspots at no extra charge. Contract lengths can be 3, 12 or 24 months.

Vodafone will send you an SMS text to let you when you have used £5 of internet access and then every £10 thereafter.

The key benefits of this tariff are that after the £5 per month cost, you only pay for what you use, you get real value from your package with 1GB of internet to use at BT Openzone Wi-Fi hotspots at no extra charge and the peace of mind that this package isn't a massive overhead when it's not being used or needed.

Once you have chosen the right mobile internet package for you, you then have the option to choose whichever device you want in order to connect your mobile internet to. If you don't need a device, then just select the SIM card option.
