

Vodafone Business Connected package

Welcome to the Vodafone Business Connected package.

This package is perfect if you like to be 'in the loop'. And that means checking in with the office regularly from your plane, train, car or even restaurant table. For those times, you need to be connected.

Take Jake for example:

Jake is an area manager and spends about 30% of his time in the field. His company is run heavily via emails and lots of the software/applications that need an internet connection. He uses a company laptop and is expected to respond to his emails throughout the course of the day. Jake also travels fairly often and likes to take advantage of Wi-Fi hotspot connections.

This is why the Vodafone Business Connected package is perfect for Jake, prices start at £12.50 a month this includes 2GB of mobile internet, 5p a megabyte thereafter and includes 2GB of access to 4000 BT Wi-Fi Openzone hotspots at no extra charge, contract lengths can be 3, 12 or 24 months.

Vodafone will send you an SMS text to let you know when you have used 80% of your allowance, then again once you have reached 100% and any extra that you have spent in the month so you can really keep on top of what you are spending.

The real benefit of this package is that you can stay in the loop, check in via email, browse websites and all with the security that you are connected in and out of the office.

Once you have chosen the right mobile internet package, you then have the option to choose whichever device you want in order to connect your mobile internet to. If you don't need a device, then just select the SIM card option.
