

Vodafone Business Standby package

Welcome to the Vodafone Business Standby Package.

This package is perfect if you want a back up mobile internet connection. You know those times when you just need 2 minutes online? Urgently? And you're out of the office. Or you might be worried about your office broadband breaking down on you, have this as back up for those just in case moments.

Take Greg for example...

Greg mainly works from his home office and relies heavily on his email and having an internet connection. His broadband line recently stopped working.

The Vodafone Business Standby package is perfect for Greg as it gives him another way to connect to the internet until the broadband line is fixed.

You pay just £3 each month then 5p for each bit of internet used thereafter, we call this a megabyte. Greg just pays for what he uses and can afford to have this package as a backup. Contract lengths come in 3, 12 or 24 months it means Greg's company can use this service for as long or as short a time as they need to.

Vodafone will send you an SMS text to let you when you have used £5 of internet access and then every £10 thereafter.

The real benefits of this package are the flexibility of agreement length, low monthly cost for peace of mind and the fact it's perfect as a temporary fix.

Once you have chosen the right mobile internet package for you, you can choose whichever device you want to connect your mobile internet to. If you don't need a device, then just select the SIM card option
