

Vodafone Wi-Fi Modem

Vodafone Wi-Fi is the latest cable free, without software, wireless modem that connects any laptop, PC, Mac or tablet (as long as it is Wi-Fi enabled) to the Internet.

It can connect 5 devices at once and works in the UK and overseas.

The modem lets out a 'Wi-Fi' signal which you can connect to using the password on the inside of the modem.

The modem is available free of charge on selected business packages.
