Personal information we collect about you

Information we collect about you

In order to enable users to make use of the application features and provide the service through the application, DreamLab Application assigns or collects the below information about users:

- Universal Unique Identifier (UUID) – a unique device identifier assigned when using the DreamLab Application;
- Country of install (SIM) - so that DreamLab Application can determine region for localised content (Android only);
- User selected device region (the region locale that the user selected when setting up their device) – so that DreamLab Application can determine region for localised content. This data may also be used when displaying your activity as part of our leadership board functionality;
- Identifier token (random string of numbers) is assigned to a user, if they choose to login to the DreamLab Application via their Apple or Google account. You can choose to unlink your DreamLab account with these providers via their settings. For more information on how these providers process your personal data we recommend that you review their privacy policies;
- Your social media first and last name if you have chosen to link DreamLab to your Apple or Google accounts;
- Your app activity when you choose to log in via your Apple or Google account. This data may be displayed as part of our leadership board functionality. If you do not wish to participate in the leadership board functionality then you can choose to use the app anonymously by not linking your Apple or Google account;
- On Android devices (only) the app requests access to photos, media, files permission in order to temporarily store the tiny research problems whilst they are being processed and solved by the phone. DreamLab Application will only access the files it has created in the files directories. DreamLab Application does not need access to any of your personal data or photos to be able to solve tiny research problems.

When we collect your personal information

We collect your personal information when:

- You download the application;
- If you choose to link your Apple or Google account with your Dream Lab application.

Vodafone will process your personal data based on:

- A performance of a contract – to provide you with the service you have asked for;
- When in Vodafone's legitimate business interests – when it comes to developing and improving the app when gaining insights through app analytics.

How we use your personal information

We will use your personal information for the following purposes:

- If you have chosen to link your Apple or Google account then we will display your first and last name for those services in our leaderboards, delinking your account from Apple or Google will stop that data from displaying on our leaderboards;
- We may use your activity information for analytics purposes but this will be done on an anonymous and aggregated basis; We also access anonymous information via Google, Apple and Adobe Analytics about use of the DreamLab Application in order to improve and enhance the DreamLab experience. The data collected for this purpose is anonymous, aggregated and de-identified. Some examples include age, gender, operating system and time spent using the DreamLab Application. We access this information to understand how you and our community as a whole use our application.

How we share your personal information

Vodafone will not share or disclose to third parties any information collected by the application, unless you have agreed to do so or explicitly required by law.

International data transfers

We may need to transfer your information to other Vodafone Group companies or service providers in countries outside the European Economic Area (EEA). The EEA consists of countries in the European Union, Switzerland, Iceland, Liechtenstein and Norway; they are considered to have equivalent laws when it comes to data protection and privacy. This kind of data transfer may happen if our servers (i.e. where we store data) or our suppliers and service providers are based outside the EEA, or if you use our services and products while visiting countries outside this area.

If Vodafone sends your information to a country that is not in the EEA, we will make sure that your information is properly protected. We will always ensure that there is a proper legal agreement that covers the data transfer. In addition, if the country is not considered to have laws that are equivalent to EU data protection standards then we will ask the third party to enter into a legal agreement that reflects those standards.

How long we keep your personal information for

The personal data processed in connection with your leader board activity, if you have chosen to link your Apple or Google account, will be deleted as soon as you choose to delink your account.

Vodafone may retain aggregated and statistical reports about use of the DreamLab Application but these reports will not identify you as a user.

Keeping your personal information secure

Vodafone takes technical and organisational security measures as required by law and by industry standards to protect your personal data from unauthorised access, use or disclosure. We take steps to ensure that we only use your personal information as described in this privacy notice and to honour the choices that you have made. We only partner with service providers who contract to provide the same level of information security that you can expect from Vodafone.

In case you need more information on how Vodafone uses your personal data and/or maintains the security of your information, and your rights to access and/or delete the information Vodafone holds, please contact DreamLabUK@vodafone.com.

Your rights

Below we set out details on how you can exercise your rights. If you have a question or cannot find the answer, please contact our Privacy team.

Right to correct personal data

You have the right to correct information held about you if it's not accurate. The only personal data we will process will be if you decide to link your Apple or Google account with the app. If that information displayed is not correct then you will need to inform those parties that the data related to those profiles requires updating.

Right to access personal data

You have the right to make a request for a copy of the personal data that Vodafone holds about you. The only personal information we will hold is your leader board activity which you will be able to see within the app.

Right to data portability

You have the right to be able to take with you the personal data you provided to us in certain circumstances.

Right to object to use of personal data

You have the right, in certain circumstances, to object to Vodafone processing your personal information.

To opt out of analytics;

For Android users, you can opt out of providing this information via the DreamLab Application Settings.
For iOS users, you can opt out of providing this information via your device Settings.

To opt out of social media logins;

You can also choose to delink your Apple or Google account from the app via the settings for those providers.

To opt out of push notifications;

For iOS users, you can opt in to receive app service related communications (for example, to set yourself a reminder to use the application, or to be updated with research news and discoveries) if you 'Allow Notifications' when setting up the DreamLab Application. No personal data is collected by the application for this purpose. You may disable push-notifications via your device Settings (Notifications).

For Android users, you can opt out of app service related communications via the DreamLab Application Settings anytime.

How to lodge a complaint

If you want to contact us about any of your rights or if you complain about how we use your information, contact our Privacy team. We'll do our best to help but if you're still unhappy, you can contact the ICO – their details are at www.ico.org.uk

Right to erasure

If you choose to no longer have your personal information that you have linked via your Apple or Google account to the DreamLab app then you can delink your account via the settings for those providers.
