

# Vodafone Broadband

For a more powerful, secure and convenient Wi-Fi experience

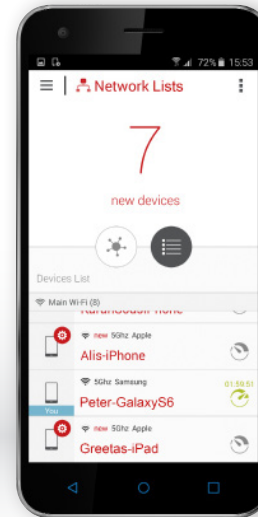

## Beamforming router technology

Focus your Wi-Fi signal where you need it most, sending a stronger signal direct to compatible devices

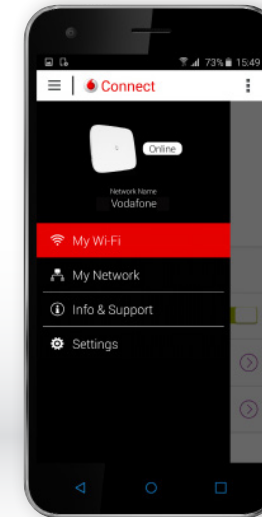

## Boost

Prioritise Wi-Fi speeds to your chosen device for up to 2 hours at a time

## Ultra-smart app

Control your broadband from the Vodafone Connect app - change your password, see which devices are connected to your network and schedule when the Wi-Fi is switched on and off and for how long

## Guest Wi-Fi

Set up guests easily on Wi-Fi, give them a separate password and schedule when they can access the internet, keeping your home broadband network private
